ANNUAL

Police Department to Take Charge of the Matter This Year.

HEALTH BOARD'S FORCE INADEQUATE

Notices Will Be Served Tomorrow, Ordering Property Owners to Put

Their Premises in Good Santtary Condition at Once.

their premises are not cleaned as soon as possible after May 1, the owners will be for their dereliction of duty.

In the past years the work of cleaning up the city has been under the direction of the the altar of their country. Board of Health, but this year a new departure is to be made, the annual cleaning up to be heard from, but a few lightning rode process being placed under the supervision have been elevated and their owners are not of the police department. This is due especially to the fact that the Board of Health Littlefield, M. G. Macleod, John Butler, John Grant and Herbert T. Leavitt are has so few inspectors in its employ and also to the belief of certain of the city officials John C. Wharton have been prominently that the board is not able to do the work mentioned by parties who are desirous of having the legal profession represented on the former had the control. The board then source that Leavitt has been making an had five inspectors, who, however, appeared active canvass for the appointment and to be unable to do all the work. At any that he has received the promise of at least rate it was found necessary to call upon two of the judges that they will vote for the police and a number of officers were him. The appointment of Wharton is being the police and a number of officers were him. The appointment of Wharton is being specially detailed to notify property holders urged by several of his friends and it is were more successful, perhaps, on account of the fact that they were uniforms, than the Board of Health force.

In accordance with the new plan, Chief equally divided. of Police Sigwart has issued a general order to the men under him to begin the work to morrow. He has instructed them to abate nuisances of all kinds, especially those that ome under their observance their beats, particularly in back yards and alleys. Every patroiman will be supplied with a quantity of notices, which he is to serve upon the owners and occupants of all premises which are not in spick and span endition. He also has instructed the offiers in case of any failure upon the part

While the streets of the city and the property facing them are in fairly clean condition, a promenade through the alleys is enough to convince any one that the broom is badly needed. On account of the generally cool weather, this has not brought forward very emphatically to the

attention of the public.

Complaints have been made especially in regard to the heaps of manure which adorn various premises. This condition is not always the fault of the property owners or occupants. In fact, in many cases they are as anxious as any one to get the obnoxious ment enterprises has obviated all difficulties ways the fault of the property owners or heaps out of the way. But Garbage Master Macdonald says he does not have the facilities to respond to the calls made upon him. At other times he is said to be too busy in prosecuting those who have imposed upon his garbage hauling monopoly by attempting to save their families from starving by hauling away a few loads of refuse. He is called into police court every little while

for this purpose, "I don't run this office to keep people from starving, not much," he said the other day in court, "I pay \$250 a year for the privilege of hauling garbage and you bet no one else will do it."

Do Not Do This. Do not be induced to buy any other if you have made up your mind to take Hood's to "The New Dominion," as presented by Sarsaparilla. Meeting of Retnil Grocers. Some thirty of the retail grocers of the city met in the parlors of the Commercial club Wednesday night to take the preliminary steps in the formation of a Retail Grocers' association. The purposes of the organization are to prevent as far as possible the commission merchants and jobbing merchants of sion merchants and jobbing merchants of the city from selling to consumers, to protect themselves from "dead beats," and in general to build up the retail grocery busi-

A letter received at The Bee office in response to a letter of inquiry sent to Pierce county shows that the meeting is called as a result of an understanding between some of the county boards in the northeastern portion of the state. It is proposed to have a conference of county commissioners from all over the state for the purpose of discussing desirable changes in the laws relating to county affairs, with a view of securing the enactment of laws making such changes. It is also learned from the same source that tremely careful to avoid giving the matter publicity for fear, as they say, that the newspapers and the public may oppose their

Crawford System for Primaries. At a meeting of the Thurston Republican club the Crawford system of primaries, which has been under consideration for some weeks, was unanimously endorsed. A committee was appointed to draw up a set of rules to be suggested for the government of the primaries, and these will come up for consideration next Wednes-day. This accomplished, a public meeting of the republican electors of the county will be called to act on the matter. Members of the club are confident that they will be able to secure the adoption of the system.

Thought to Be Favorable\_Presidential Situation Reviewed.

General Manderson returned from Washington yesterday morning in much better health than when he came back from the national capital a few weeks ago. He was engaged for three days in the arguments on the sugar bounty cases before the United States supreme court. The government was represented in these cases by Assistant Attorney Generals Whitney and Conrad. Judge Sims of New Orleans, Joseph H. Choate of New York City and General Manderson reprecondition that the Fort Omaha band should give all the concerts until the regiment was transferred in July, but Mr. Redfield wanted While in Washington General Manderson

succeeded in having Hoke Smith, secretary of the interior, write a letter to Attorney consisting of Reiffeld and Tukey, to see what arrangement could be made and report General Harmon recommending the disdismissal of the land grant suits in this state against persons who purchased their property from the Burlington railroad. General Manderson said the Burlington system was indifferent as to whether the cases were dismissed or not, but the company did poured in, but it dropped into the sandy soil want permission to represent the hundreds of farmers throughout the state in the matas though the lake bed was a skimmer. At the implance of Redfield, it was decided after some discussion to draw off the water preliminary to an effort to tamp up the ter and thereby save much anxiety to all concerned. Emily J. Robinson, principal of the Sar-atoga school, wanted some vines and plants for window gardens at the school house. Miss very soon.

Concerning the political situation, General Manderson sa'd that it looked as though the people wanted McKinley. It seemed as though an immense wave of McKinley senti-It seemed as ment was sweeping over the country. Whether or not it would subside before the national convention convened was a difficult matter to predict. He thought the action of the Illinois convention, now in session at Springfield, would go a long way toward de-termining the final solution of the matter. If it endorsed McKinley he thought the latter's nomination was very probable. If it did not enderse McKinley, he thought the battle was any one's. He said there was a sentiment very favorable to Reed throughout the east. In Pennsylvania and New York where favor te sons had been endorsed, the party preferred Read to Allison and Allison to McKiniey. The New Jersey republicans had, in a great measure, left their vote to Senator Sewell, and he was in favor of Reed. "Still, should Illinois and Indiana instruct in favor of McKinley," added General Manderson, "there would be nothing left for the eastern republicans to do but to climb into the 'band wagon,' as the popular expression
